

Inclusive academic environment

Aditya University is committed to fostering a diverse and inclusive academic environment by systematically tracking and supporting the admission and success of female students. This focus on gender balance is integral to the university's mission.

This commitment is reflected in the growing enrollment of female students over the past three years, as shown below:

Year	Women students admitted
2022	561
2023	757
2024	787

Through these efforts, Aditya University ensures women have equal opportunities to apply, be accepted, and thrive in their chosen fields

On-campus childcare facilities

Aditya University provides accessible on-campus childcare facilities for its students, supporting recent mothers in continuing their education without interruption. This initiative reflects the university's commitment to creating an inclusive and supportive learning environment by offering a safe, nurturing, and convenient space for young children. The childcare center enables student-parents to balance their academic responsibilities with their family obligations effectively. Through this initiative, the university reaffirms its dedication to promoting equal opportunities in education, fostering student well-being, and supporting a healthy study–life balance for all members of its community.

Day care facility

On-campus childcare facilities- Staff

Aditya University has a dedicated on-campus day care facility for its faculty and staff. This initiative reflects the University's commitment to supporting working parents by providing a safe, nurturing, and convenient environment for their young children. The childcare center enables faculty and staff to balance their professional responsibilities with their family obligations effectively. Through this initiative, the University reaffirms its dedication to fostering a family-friendly workplace that prioritizes employee well-being and promotes a healthy work-life balance. The facility serves as a valuable support system for parents within the University community and contributes to cultivating an inclusive and positive environment for all members of the institution.

Women's mentoring schemes.

Aditya University has established a dedicated Mentoring Scheme aimed at supporting female students through personalized guidance and career development. The scheme encourages women to pursue technical training, which plays a crucial role in enhancing their employability after graduation. Each year, the number of female participants continues to grow, reflecting the increasing impact and effectiveness of the program. Through this initiative, women gain valuable skills, industry insights, and networking opportunities that empower them to excel in technical fields and strengthen their career prospects. The university takes pride in the continued success of this program, which contributes significantly to helping women achieve their professional aspirations.

Aditya University continuously tracks the graduation rates of its women students to ensure equal opportunities and academic success for all. The university closely monitors the data each year and implements initiatives aimed at supporting women's education and achievement.

The graduation rate of women students is shown below:

Year	No. of women graduates
2022	356
2023	342
2024	448
